When the day starts - up comes the sun

It reminds me of your wondrous love.

Sometimes in life things happen

I fall away but you stay

So i say

Chorus - i love you lord 4xs

Lord you are wonderful you never change

Praise you holy name 4xs

The stars shine so bright reflecting

Perfect light

I gaze and remember you amazing might

Of all the things in this world

You re the only way

So i say

Hear me pray
