Visit "[Another Lost Summer](#)" on MotoLyrics.com

I vowed this wouldn't be another lost summer
I've looked around but I cant see
That old time summer
It's still hot but I look at what I've got
And I'll feel is number

I guess it's too late to plant those seeds
'Another lost summer'
It's not worth it to pull the weeds
'Are you ready drummer'

They'll just die, like I'm doing inside
My brother and I were the best of friends
'That old time summer'
More than just brothers but now I pretend
'Another lost summer'

Is it a crutch? That I expect so much?
I promised myself I'd be strong this year
'Ohh'
But here i am again filled with summer tears
'Ohh'
And the fish ain't biting and I'm through fighting

The same situation the same frustrations
'Cause summers almost gone
The love I planned to sing about never came along
And I can't figure out where I belong

But ever year I sing the same old song
Where's that old time summer?
It's another lost summer
Another lost summer
