Well you had me from the start, you are so good  
looking  
And then you stole my heart with your down home  
cooking  
Fried chickens and greens,... roast on Sundays  
Fried... beefs corn bread on Mondays

Well I hadn't have that sweet... feeling since I don't  
know when  
Tell me what can I do to get back in your kitchen again  
I never would have dreamed that... so much loving  
And the simple things that come out of your oven  
The smell of those... and home made pies  
Well if this is a dream I won't open my eyes  
It's a symphony of recipes and I don't want that music  
to end  
Tell what can I do to get back in your kitchen again  
I want some more

Now, mama always said you'll find that girl someday  
And you'll taste something special and you'll know  
that's when you wanna stay  
Since I've been gone I've been loosing... getting too  
thin, yeah  
Tell me what can I do to get back in your kitchen again  
What can I do to get back your kitchen  
Tell me what can I do to get back in your kitchen again  
What can I do to get back your kitchen  
What can I do to get back your kitchen come on baby,  
I'm hungry  
What can I do to get back your kitchen, put on that nice  
table clothes  
And take of everything else, wuhu.
