Some men may be... when it comes time to do their
hard
Call my name and I will say the cavalry is on it's way
Rewinding on the true romance leave so many things to
chance
You need someone to same the day, the cavalry is on
it's way
For the lady in distress, I'm John Wayne and nothing
less
I'm the good guy coming to your rescue
I'm a strong... guy, just say the word and you will find
me
In the saddle on my way to love you

If you need someone by your side, I don't care how
long you ride
... that's ok, the cavalry is on it's way
For the lady in distress, I'm John Wayne and nothing
less
I'm the good guy coming to your rescue
I'm a strong... guy, just say the word and you will find
me
In the saddle on my way to love you

You will not have to cry in vain
I... the dust to ride in rain
Like a man from Monterrey, the cavalry is on it's way
The cavalry is on it's way.
