Intro: instrumental

Verse 1: sitting on the corner

watching you walk near

wondering if you'd even want to talk to me

you told me your name

we talked about our favorite bands

as we sat there watching stars go by

Pre chorus 1: watching, waiting, just anticipating

hoping, praying, we'd meet again

Chorus: sitting with you on that warm night in June

praying to God that I can hold your hand

and if I could freeze time then you and I would

still be sitting there in that parking lot

Verse 2: I already forgot what life was like,

without you being around

And I can already hear our names on our answering

machine, I can't wait till you here with me

Pre chorus 2: I moon walked my way right into

your heart and, I never fell in love so fast

Chorus: 1x

Bridge: instrumental

Pre chorus 1: 1x

Chorus: 1x

Outro: this bracelet reminds me of the night,

the night I fell in love
