Title : Loneliness (ft. Bobo)

-----

Blackness

All is wrapped in blackness

Covered overall

Blankets of blackness

Can't even see my fingers

In front of my eyes

Moving like ballet dancers

in slow motion

And a sound reminding me of

Bugle calls

Hurricanes my heart into

commotion

But waiting is never wasted time

Waiting is never wasted time

Even loneliness is full of life

Loneliness itself is full of life

Waiting to be discovered
