Verse 1: I love you so and I think you should know.
It's time to come clean, say what I mean it's the way
you make me feel.
Every moment with you seem's like a dream your so
surreal.

Chorus: My whole life, I have tried to find someone like
you,
I never knew it could come true but im glad it did.

Verse 2: Could I look and not see, could I live and not
breathe?
Could I feel and not touch, could I love without you here
with me?

Chorus: 1X

Bridge: Looking at you I realize that I can't compromise
for second best you beat the rest, and I want to be with
you or else I'll miss you just let me kiss you.
