Verse1: Am I hopeless or romantic, I've spent these past years in love with you.

I wake up tired 'cause I had the best dream of you and me in love.

Pre-chorus: But then I wake up alone.

Chorus: Under this October sky I'm trying to act like I'm not cold so we can talk out here for awhile.

This harvest moon shines on your lips and it draws me in to go for a kiss,

I hope you don't pull away or I'll pull you in.

Verse 2: I can't believe I got the nerve to tell you, how much you really mean to me.

My head always kept me from saying how I felt but my heart said we were meant to be.

Pre-chorus: Tonight is the night that I'll let you know

Chorus: 1x

Bridge: instrumental

Chorus: 1x

Outro: I hope you don't pull away or my heart will break.
