Caress the hardest heart (x2)

Let the morning sun proclaim  
The light of the world  
Let the golden day unfurl  
On every wave  
On every hill

Each angered fist uncurl  
Caress the hardest heart  
Stir the sleeping earth  
Each stone  
Each blade of grass

The soul of the world  
Ignite a brand new day  
Let the morning sun proclaim  
A brand new start  
Caress the hardest heart

Caress the hardest heart  
[Repeat all verses]

[Last verse]  
The soul of the world  
Ignite a brand new day  
A brand new start  
A brand new way
