I've lost control
I sold my soul and I can't get it back
I broke the mirror cause I didn't see me
Why do I feel like shit all week?
I'm always tired and I'm dead broke
I'm losing hope

Long day, bad night
Too wasted to drive
I can't find my keys
It's been 3 months
I miss your face again
Phone full of numbers but no real friends

The weekends come, the weekends go
The same old party with new regrets
I keep on falling down the same old hole
When will I get myself out of it?
