as you can see we've got nothing to hide
no fear
as you can see we've got nothing to hide
no fear, no fear
as you can see we've got nothing to hide
no fear of giving you a lot of what you need

so now I'm part of it
of a sea of pure emotions
so now I'm part of it
I'm coming through on every beat

so now I'm part of it
of a sea of pure emotions
so now I'm part of it
I'm coming through on every beat, every beat, every
beat, every
beat, every beat
so now I'm part of it

this is manipulation
this is manipulation
this is manipulation
this is manipulation
we'll put your soul in danger
we'll put your soul in danger
destroy and rearrange her
destroy and rearrange her

as you can see we've got tricks on our sleeves and
magic sticks

as you can see we've got tricks on our sleeves and a
better plan

we got the eyes that scan deep into your world
we got the gods and the demons on our side

this is manipulation
this is manipulation
we'll put your soul in danger

we'll put your soul in danger
destroy and rearrange her
destroy and rearrange her
this is manipulation
this is manipulation

so now I'm part of it
of a sea of pure emotions
so now I'm part of it
I'm coming through on every beat

so now I'm part of it
of a sea of pure emotions
so now I'm part of it
I'm coming through on every beat

so now I'm part of it
of a sea of pure emotions
so now I'm part of it
I'm coming through on every beat, every beat, every
beat, every
beat, every beat
