I could sit down, and write songs all day,  
About almost anything you say,  
The only objection is you,  
I admire you from far away, I just can't think of what to  
say,  
My friends notice my new ways,  
What about you?  
I think of you all times, all day,  
I know how I am is just not okay,  
But it's not like I'm trying to be this way,

(refrain)

I just wanna be with you, That's why I appear,  
To take you away,  
Away from here,  
You are for me,  
And I'm for you,  
The pain I feel inside my heart,  
Couldn't be more true,  
I just wanna be with you.

I look out my window at every one,  
And see you dancing in the sun,  
My heart beats through my shirt all at once,  
When I see you,  
When I think of you, I breathe real fast,  
The world seems really really vast,  
You're at the front of my life's huge mast,  
I guess I'll see you soon.

I just wanna be with you,  
That's why I appear,  
To take you away,  
Away from here,  
You are for me,  
And I'm for you,  
The pain I feel inside my heart,  
Couldn't be more true,  
I just wanna be with you.
