Tried so hard just to live and forget and forgive  
And to live by their rules  
And to try to fit in I would do anything  
Like a poor blinded fool  
"You must do what they say and not question the way  
"That was chosen for you"  
I thought that was the way that life had to be  
Until I found out the truth  
Now I open my eyes  
It's just like I was blind  
In the land of the blind  
In the land of the blind  
In the land of the blind  
Now they think I don't see, poor derision on me  
With their hypocrisy  
Cynical egotist, government hypnotist  
Too small minded to see  
And the truth is so bright like a blinding light  
My true path I could find  
Theories incomplete sceptics I must defeat  
For my own peace of mind  
Now I open my eyes  
It's just like I was blind  
In the land of the blind  
In the land of the blind  
In the land of the blind  
(I was blind to the truth)  
You think you got freedom now  
That's how they hold you down  
You think you got freedom now  
That's how they hold you down, down  
You think you got freedom now  
That's how they hold you down  
You think you got freedom now  
That's how they hold you  
Tried so hard just to live and forget and forgive  
And to live by their rules  
"You must do what they say not question the way  
"That was chosen for you"  
I thought that was the way that life had to be  
Until I found out the truth

Now I open my eyes  
It's just like I was blind  
In the land of the blind  
In the land of the blind  
In the land of the blind  
(I was blind to the truth)  
In the land of the blind  
In the land of the blind  
In the land of the blind  
(I was blind to the truth)
