"Speed Of Light"

Visit "[Speed Of Light](#)" on MotoLyrics.com

All the force of nature, chaos and the death of hope
Don't resist them and accept the death of all you know
You walk alone and face the darkness you will be
reborn
Rediscover your existence in it's purest form
Searching for the reasons why, will you know when it's
your time?
Time flashes before your eyes
Watch everything change at the speed of light
The speed of light
As the future casts a shadow into here and now
Time tells a secret whisper it without a sound
You trust yourself your instincts or the answers of
mankind
Will you ever have the strength to leave this world and
find
Searching for the reasons why will you know when it's
your time?
Time flashes before your eyes
Watch everything change at the speed of light
Time flashes before your eyes
Watch everything change at the speed of light
The speed of light
All the force of nature, chaos and the death of hope
Don't resist them and accept the death of all you know
You walk alone and face the darkness you will be
reborn
Rediscover your existence in it's purest form
Searching for the reasons why, will you know when it's
your time?
Time flashes before your eyes
Watch everything change at the speed of light
Time flashes before your eyes
Watch everything change at the speed of light
The speed of light
