Sometimes even I feel
I believe I really do that someday
I will remember life for if the dark love ever was pure
It was so definitely ours do you remember
How we slaughtered the hordes of light
The two of us together like ravens on blackened
ground
So cold lie our sisters and brothers
With dreams of autumn death silently
Things have changed and the forest breeds our
eternity

Der hviler en nat under sorte vinterboge
Der hviler en nat i tr'ernes sk'r
Der hviler en nat under danske himle
Der hviler en nat for altid

Dream my love
dream away the darkness

In dreams soothe me well
Soon I will enter her darkened caves
And together we will embrace the night

Der hviler en nal under sorte vinterboge
Der hviler en nal i tr'ernes sk'r
Der hviler en nal under danske himle
Der hviler en nal for altid

Dark summernights of eternal twilight

Der hviler en nat under sorte vinterboge
Der hviler en nat i tr'ernes sk'r
Der hviler en nat under danske himle
Der hviler en nat for altid

"I do" still echoing in my ears
Der hviler en nat under sorte vinterboge og under
manen fandt vi den
