"Good As Gold"

Sunshine come and do your shining
You're welcome to come and make your place
This eclipse petitions on my weak lips
And I'm looking for clearing in this haze

I'll take it as it comes
I'll chance it all because

The one thing that I know
The one thing that I'll always hold
Is my only reason is good as gold
The one thing that I know
The one thing that I'll always hold
Is my only reason is good as gold

Sweetness bitter change to weakness
And I'm raising my eyes above the swells
Sweetness oh the sweetness
And I'm raising my eyes up to the hills

I'll take it as it comes
I'll chance it all because

The one thing that I know
The one thing that I'll always hold
Is my only reason is good as gold
The one thing that I know
The one thing that I'll always hold
Is my only reason is good as gold

Good as gold
Is good as gold
When I'm up
And when I'm low
