My fee areplanted I can't fly...I'd like to moonwalk  
through  
The sky...I'd like to tiptoe past this atmosphere ~ And  
so  
I gaze past satellites...Past suns and stars and endless  
Nights...It's clear to me, I see I'm small ~ Compared to  
You  
I'm nothing at all ~ Beyond the depths of space and  
time...  
You built these things that remind...Setting suns and  
shooting  
Stars...Say who You are ~ You're the Lonestar ~ And I'll  
lift  
My head up to the sky...Your hand of greatness touches  
mine...  
I'll be content, I know I'm small ~ Compared to You I'm  
Nothing at all...
