As being carried through the winds of disgust  
Your breath stroke me like the autumn sun silently  
Your life turns to dust and my soul withers without a  
hope  
Seeing you walk in the night underneath you hide from  
the trees  
In the shadow of your new born light  
Night without a sign

Ved dette skafol i oprorets tid i delle sekund  
med nallen sa hvid ved bjerge ved sletter  
med sj'lenes bid da sorgen blev min banemand

I gave you my life  
Gave you my life for blood  
I gave you my life  
Gave you my life for grief

Still it's been so many nights ago  
You ripped my heart to pieces  
And the autumn water melted my soul  
To he one with night and one with you  
So many nights ago

So many nights ago  
So many nights ago  
You stabbed my heart with the knife of sorrow  
Drowning myself in seasons of tragedy  
Falling further down the blood falls with tears from the  
heavens  
Falling further down at the edge of the bleak cold hills  
I cry falling further down loosing myself in the embrace  
of death  
Falling ever down

Ved dette skafol i oprorets tid i detle sekund  
med natten sa hvid ved bjerge ved sletler  
med sj'lenes bid da sorgen blev min banemand

Melancholy flows like wine in the river of hope  
In the autumn of eternity I gave her my word.  
And her body flew through trees that may whisper

Melancholy flows like wine in the river of hope
