Bleach
"Baseline"

Visit "Baseline" on MotoLyrics.com

You got me dreamin' in color
I refuse to think any other way
Gotta get it straight
Before it gets too late

Bring back, bring back the baseline
I think it's about that time
I can't afford to miss
I was made for this

And I can't wait for a change of pace, hey

If It's gonna be
It's gotta be sometime
Be sometime tonight
You break in
We break out
Let's break out

I know things have been changing
I guess worry's been invading me
I'm getting tired of
Being uninspired

So bring back, bring back the good times
I think that would be just fine
It's where I belong
So I'll just sing on

And I can't wait for this thing to break

If it's gonna be
It's gotta be sometime
Be sometime tonight
You break in
We break out
Let's break out

If it's gonna be
It's gotta be sometime
Be sometime tonight
You break in

We break out
Let's break out

If it's gonna be
It's gotta be sometime
Be sometime tonight
You break in
We break out
Let's break out

If it's gonna be
It's gotta be sometime
Be sometime tonight
You break in
We break out
Let's break out

Bring back, bring back the baseline
Bring back, bring back the baseline
Bring back, bring back the baseline
Bring back, bring back the baseline
