What about now  
I don't even feel that I can cope with  
The situation that a nigga in  
Nigga gotta go for broke but I  
Be thinkin' about the consequences of my actions  
Cause if anything go wrong I'ma have to go out blastin'  
I can't see myself washed-up with 25 with a L  
Nigga like me I'd rather be dead than down in hell  
But I gotta do something  
Cause bein' broke this just ain't me  
So I guess that I'ma find out which one force could  
control my destiny  
I'm willing if God can give me out that shit  
Cause if he can't and if I die I hope that I am on his list  
To make it to heaven cause this 211 might turn into a  
187  
But - I might be the victim  
Only thing good - no more stressin  
Smith & Wesson in my hand so here I go  
So - between the devil and God I'ma see who love me  
the most

Between heaven and hell where'll I go  
I don't know and right about know a nigga just can't  
cope  
Smith & Wesson in my hand so here I go  
So - between the devil and God I'ma see who love me  
the most

[G-BONE]

I wish that I had another way up out this shit - but it  
Seems that wishes don't come true when it comes to  
shit like this  
Funny thing to happen to a nigga like me  
Cause I remember I had a B-grade, ???? C  
But - runnin' around with the homies resulted  
In a lot of conflicts  
By the middle of the ninth grade I became a convict  
Got convicted of attempted murder to the C.Y.A. -->  
(California Youth Authority)

Now look at the muthafuckin' price I gotta pay  
Out on parole  
Can't get a job  
Cause I got a felony and being black  
Is another strike against me  
What can I do?  
And where can I turn?  
Which way can I go?  
I don't know but I just can't get with this shit no more  
Loc even though I'm knowin' that this shit is wrong G  
But I - can't go on for long livin' with this poverty  
They got me stressin' cause I'm black and they don't  
like me  
For that simple fact and since I bang they wanna strike  
me  
How do them  
Muthafuckas criticize this shit I do  
With all this shit in this  
Living hell they send me through  
So with this Smith & Wesson in my hand here I go  
So between the devil and God I'ma see who love me  
the most  
(Who love me the most)

Between heaven and hell where'll I go  
I don't know but right about know a nigga just can't  
cope  
Smith & Wesson in my hand so here I go  
So - between the devil and God I'ma see who love me  
the most

[G-BONE]

Now I'm crippin' up  
Out of the muthafuckin' cut yeah  
Nigga it's that nut that nigga let you know that he didn't  
give a fuck  
Bangin on wax, better yet  
Bangin on facts nigga this ain't no studio banger here  
Nigga representin' that muthafuckin' Rip Killas  
Niggas Nationwide know it's the A-D Drive  
Hated by many  
Loved by few respected on every side  
Nigga South Side capital C-o-m-p-t-o-n  
Puttin' on endo, drinkin' on a fifth of gin  
Ready to sin ain't  
Goin' to heaven cause I'm bailin' with the devil on my  
side  
Ready to homicide, 1-8-7 slip and die  
Down to die and today that's why I don't be givin a fuck  
Nigga A's up to all my enemies cause I wish you bad  
luck

Nigga what's up?!  
B-A-B-Y G's  
Y'all know what time it is  
A nigga be waitin' now it's time for a nigga to get them  
ends  
Whether to spend a C-note or end up to blowin' my real  
Locs  
Much love to my niggas offerin bud and shit for you I ?  
roam?  
So you know  
That a nigga still representin' (muthafuckaaaas!)  
It ain't no muthafuckin' bullshittin

Between heaven and hell where'll I go  
I don't know but right about know a nigga just can't  
cope  
Smith & Wesson in my hand so here I go  
So - between the devil and God I'ma see who love me  
the most...
