"Child Of Sod"

Visit "[Child Of Sod](#)" on MotoLyrics.com

I remember the first time that I met You
Everything that I had heard of You was true
I was a child of mud, I was the child of sod
Call me the son of filth, drown me to life in Your blood

You are the only one for me
You are the one who set me free
And I have found the love I need
You are the only one for me

As an infant I find my vision clearing
I grow closer to You, find You endearing
You are my maker, You are my food
And I have tasted and I find that You are good

You are the only one for me
You are the one who set me free
And I have found the love I need
You are the only one for me

You are the only one for me
You are the one who set me free
And I have found the love I need
You are the only one for me
The one for me, to set me free
The one for me, to set me free

You are the only one for me
You are the one who set me free
And I have found the love I need
You are the only one for me

You are the only one for me
(Who sets me free)
You are the only one for me
