

Bleach "Moving On"

Visit "[Moving On](#)" on MotoLyrics.com

Did you really think
That we could make it make sense
Did you really think
We could let it happen all over again

This is what you got
When you tried the first time
This is what we got
When we listened with our eyes

We're moving on
Moving on
We can't stay
No we can't stay

And there is no way
This could ever make sense
And there is no way
I could let this happen again

This is what we got
The first time that we tried
This is what you get
Every time

We're moving on
Moving on
We can't stay
No we can't stay
