Is this not what You wanted
Or is this going to be
Sittin' on the couch spinning
Something that was started
When I was only three
Just a small boy singing
Records going round and round
Records going round
Chorus:

Reasons calling
He's been calling me
He won't ever

He won't go away
I didn't seem to notice
That You were right behind me
Even when I'm not aware of
You pick me up and get me started
A picture that my mom is hoping
Dressing up for the part of

That the film will turn out
That the film will turn out right

I want to thank You
I was on the inside
For what You've done and will do
Stuck on myself
God is just beginning
Opinions, that's all that mattered to me
Well that conversation's ending
God is just

I hope you find the time
And He will get you through it
I hope you're feeling fine And we're not about to lose it
