Woke up with yawn, it's dawn and I'm still alive
Turned on my radio to start a new day
Let's get them DJs chatting, hard to survive
Amazing news got over on the airwaves

TONIGHT love is racing
TONIGHT constellation
TONIGHT love is racing my way
Almost another day

She's a shooting star, good night, good night
She's a shooting star, good bye

TONIGHT love is racing
TONIGHT constellation
TONIGHT love is racing my way
Almost another day
See you some other day
