

Bleach

"Waving Goodbye"

Visit "[Waving Goodbye](#)" on MotoLyrics.com

Life's too short, it seems
Quick it comes how quick it leaves
Search for life and pass on things

I see bits of you in me
And I've got something you should see
I am poor in most everything
But I will get a crown of Kings

And I don't know where you'll be
I hope it's with me in the sky
Looking down way below, waving goodbye

I watch the time with you pass
I wish so much that it could last
If the thief comes here tonight
I hope to see you on the other side

And I don't know where you'll be
I hope it's with me in the sky
Looking down way below, waving goodbye

I don't know where you'll be
I hope it's with me in the sky
Looking down way below, waving goodbye

I don't know where you'll be
I hope it's with me in the sky
Looking down way below, waving goodbye

Waving goodbye
