"We Are Tomorrow"

Freeze the frame, memorize it
Take the mistakes, and don't go back
To where we've always been
The time has come that we begin, to shine
To shine
It's our time
It's now or never

We want today
We want yesterday
We are tomorrow

Here we come, it's our season
I swear that it's true
But it takes faith in more than what we are
Faith in more than what we are to shine
It's our time
Make us shine
It's now or never

We want today
We want yesterday
We are tomorrow

Can we ever, it's now or never it's our time
Will we ever, it's now or never.
