"You Are Good"

What goes around, comes around
And I can't breath
What holds me up is what holds me down
And I am more unstable than I seem
The heart is bear
There's not much there
CHORUS:
But I believe you've given me
More than I could know
and I know this
You are good
I've fought the fight against myself
A I lost the fight again
My body's broke from fallin' down
Just give me one more chance
This time I'll win
The heart is bear, but I know that you're there
CHORUS
My eyes are weak
I can only see a glimmer of your gold
but it's enough to know that you are good
you are good
The heart is bear but I know that you're there
CHORUS
My eyes are weak
I can only see a glimmer of your gold
but it's enough to know that you are good
CHORUS
And through it all you've given me
A peace that overflows
Oh how I know that you are good
you are good (3x)
You're so good to me, so good to me, you're
good(repeat)
And you are good
