Is everything broken is everything old  
Is everything spoken that I should know  
God let me know this boy's growing old  
And this much I know  
I don't know why you like saying goodbye  
Cause there's someplace that I'd like to go

I think that I'm closer to telling you why  
And I think that I'm nowhere I'm nowhere tonight

Oh and all I can do is make it to you  
I go I go slow and I wait for you  
I go I go slow and I wait for you  
I don't know why you like saying goodbye  
Cause there's someplace that I'd like to go  
Go away slow

I'm not ready January

And I don't know why you like saying goodbye  
And I don't know why boy you're laughing tonight  
Everything's over and I don't know why you know  
Know there's just someplace that I'd like to go

Go away  
Dear January
