If u could just close your eyes i'd help you pull the
trigger
I have to see if u and i were made for something
bigger
So take a breath and squeeze away lets find out what
your made of
If i should fall into your arms then by your hand will
death be done

When darkness comes a smile grows on my face no
one is here and nothing is wrong
The machines that have built my walls have
disinegrated
Slowly disinegrated

If u could just close your eyes i'd help you pull the
trigger
I have to see if u and i were made for something
bigger
So take a breath and squeeze away lets find out what
your made of
If i should fall into your arms then by your hand will
death be done

Im leaving tonight
Im craving those black skies

When morning comes the sun shines on my face
I can feel something is wrong
The machines that pumps my blood disinegrated
Slowly disinegrated

If u could just close your eyes i'd help you pull the
trigger
I have to see if u and i were made for something
bigger
So take a breath and squeeze away lets find out what
your made of
If i should fall into your arms then by your hand will
death be done

Im leaving tonight
Im craving those black skies X2
