She showed up wearing red
She's all inside my head
While we were
Standing in this overcrowded room

The essence of your eyes
Makes me just want to die
And I can't stand the way they'll never look at me again
I think about you every night
And though we couldn't make things right
I'm waiting for the time we'll share the same bedroom
again

Don't go
I'm gonna make you stay with me
Till I'm through
(Standing in this overcrowded room)
And please, make me brand new
(Standing in this overcrowded room)

I know you're on my side
I know you've doubted once or twice
And I don't know if I could be the same person
There's something you should know
It's so easy for me to say "no"
'cause you're the only one I want to be with in the end

Don't go
I'm gonna make you stay with me
Till I'm through
(Standing in this overcrowded room)
And please, make me brand new
(Standing in this overcrowded room)

I know you're on my side
I know you've doubted once or twice
And I don't know if I could be the same person
There's something you should know
It's so easy for me to say "no"
Cause you're the only one
