A little late, a little late,
But better late than never.
All alone, here in this hallway,
Missin' love we shared so strong,
Now I'm wanting you
I need another chance to show,
How much I really care for you,
I need...

Chorus:

Another night with you, (to show you what's inside my heart)
Need another night with you, (before you go)
Another night with you.
A note in my hand and I don't understand,
Why you'd leave a paper goodbye,
And never look me in the eye,
I wish I could go back one night,
So you believe in me,
That I would give my life for...

Chorus:

Time was like a wall we wouldn't climb, (It'd separate us now and then)
We part the waters and we find, (sometimes we hurt the ones we love)
Now I know where I went wrong,
Your heart should be my home, So could we give it one more try,
And if I could do it all again, I'd be with you all the time.
A little late, But better late than never.
