Funeral procession, my face is veiled by the funerary
mask, onward to the burial chamber,
Onward to the inner most shrine. I'm ready to fight with
the horrors of the netherworld.
Now that the mystical unguents are resurecting my
body and my soul.

Here start the chapters which relates the exit of my
soul, towards the regions of the
Beyond that I'll cross with the celestial boat. Now that
I'm the great god I hail you Isis my
Mother, thou who are beyond the cosmic abysses,
great is your shrine.

Hail o sacred order of goodness Nut. Let the sanctuary
of Unnu be blessed; let the gates of
Heaven be opened for me. Here is this god, this great
god of celestial Nil. He is in
Conformity with the rhythm of Ra. Grant me o gods, the
power over heaven water.

I penetrated the mysteries of hermopolis because Thot
himself laid his seal on my forehead
And the sacred eye protects me. He shines on the
forehead of Ra, father of all the gods.
The funeral rites have been accomplished, the ways
have been opened because I'm your
Son. I become the spirit pure and sanctified. I'm
protected by the words of power.

Almighty gods, divine spirits, watch me, I've
accomplished my travel, I'm before you. O
Gods of sacred rythms, listen to my words, I'm Osiris
lord with eternity. My mysterious
Residences were desecrated I have hidden myself with
you oh ye stars, I'm the master of
Sacred knowledge and magikal words.

As Ra, I protect myself, nobody can ignore me or hurt
me, o son of goodness Nut, I come to
You prince of the gods; because I'm your son I won't
die a second time in the nether world.

Now I'm entering and penetrating in the courtyard of gods.

As I executed the orders you've gave the night. I live as you Isis day after day and all the Divinities delight to see us in life: you who are me and I who are you. Now I'm entering in The temple of Nephys who blesses my soul.

Can I me too after my death be introduced among the divine spirits of knowledge.

The things which are created are in the hollow of my hand and those which are not yet Come into being are in my body. I am clothed and wholly provided by magical words... I have gained power and exaltation and full breathing throat in the abode of my father Ur And he hath delivered unto me the beautiful Amentet which destroyeth living men and women... I am Ra, who is his own protector and nothing shall ever let me to the ground.

Hail o sacred order of goodness Nut. Let the sanctuary of Unnu be blessed; let the gates of Heaven be opened for me. Here is this god, this great god of celestial Nil. He is in Conformity with the rhythm of Ra. Grant me o gods, the power over heaven water.

I'm eternal.
