Seems like yesterday but years have passed us by  
Precious memories, are clear before my eyes  
I can hear your voice, calling out my name  
I don't know you now, nothing stays the same

And all along, I have wanted you  
I pray tonight that you, want me, too  
All along there was, no one else  
I've been waiting here all by myself

If you were here with me, we'd ride the ocean tide  
To that special place, I held for you, deep inside  
I've kept good company since you've been away  
Lonely stayed with me, when pride began to fade

And all along, I have wanted you, I have wanted you  
I pray tonight that you, want me, too  
All along there was, no one else  
I've been waiting here all by myself, all by myself

And I will follow you 'til the end of time  
'Til our love is at the end of the line  
You rolled out of my life just like the wind  
And left behind a broken heart

All along, I have wanted you, I have wanted you  
I pray tonight that you, want me, too  
All along there was, no one else  
I've been waiting here all by myself
