Can't work can't sleep
Can't stop I'm so weak
Oh can't you see just what you done to me
Long hair sweet lips
Worn jeans on soft hips
Just can't resist the magic in your kiss
I couldn't die without you
My big city fun time girl
Hot white street light
Red dress skin tight
For another face or just another place
Nigh club low life
I see through your disguise
In your eyes I see a thousand lies
Can't work can't sleep
Can't think I can't eat
I couldn't die without you
My big city fun time girl
