Wanna get in my airplane
Wanna get in my airplane
Wanna ride all over
Wanna ride all over your town
And if I spy the gal I'm lovin'
Old fool gonna let this airplane
Old fool gonna let this airplane down

Now here's my hand
Now here's my hand
You can leave me where you want me
You can leave me where you want me to go
And if you leave me wrong this time
And you won't leave me no
And you won't leave me no more

And I feel like walkin' (Yes I do!)
I feel like walkin' (Yes!)
I feel like lyin'
I feel like lyin' down
And you know I feel just like lovin'
My gal ain't nowhere
My gal ain't nowhere around

Now you're three times seven
Now you're three times seven
Ought to know what you want to
Ought to know what you want to do
Mama and the day that you quit me
I won't be mad with
Said I won't be mad with you

Said I know my little woman
Said I know my little woman
She's bound to jump
She's bound to jump and shout
And whenever she gets hold of this here letter
I done loved my long time
I done loved my long time out
