So now you're finally here beyond the reach of fear  
Just feel the waves come in so far from where you've  
been

There's a kind of stranger waiting at the door  
Some kind of nervous stranger, never seen before

Dark and brooding day crystal moon at night  
Silvery shadows calling fantasy or flight

This won't take too long, I'm not so far away  
Before I am gone, you'll know me inside and outside  
I am here to change your world in every way  
Which way do you fall, light side or dark side?

Higher than the sun above the clouds  
That hide reality away  
I'll take you there, I will take you there

Higher than the sun between the heavens  
And the demons of the day  
I'll take you there, I will take you there

Never turn your back, don't try to walk away  
Something inside is burning deeper every day  
Dark and brooding day, crystal moon at night  
Silvery shadows calling fantasy or flight

Deep inside your soul, I'm hiding, holding on  
Breath in the fear and feed me, inside and outside  
Unchain your confusion, I'll soon be gone  
Let your spirits fly to the light beyond

Higher than the sun above the clouds  
That hide reality away  
I'll take you there, I will take you there

Higher than the sun between the heavens  
And the demons of the day  
I'll take you there, I will take you there

Higher than the sun above the clouds  
That hide reality away

I'll take you there, I will take you there

Higher than the sun between the heavens  
And the demons of the day  
I'll take you there, I will take you there
