Welcome on earth, everyone  
Not just a sphere, but a vibrant organism...  
And like a lovely mother for her young child  
She's offering a higher learning  
Nicely revealed by the beauty of her allies

On this life-ball grows procreation  
A mighty race facing a billion paths  
But, in a sickening act, she choose treason

Within this perfect being  
Ring so much echoes of hate  
Those discordant feelings bang inside the vault  
And the stars are crying...  
They share the blame of our own failure  
And the stars are bleeding...  
Wounded by the humanity's rupture

In heights stands the silver fortress  
Where golden secrets are sent in silence  
Through consciousness they tell a truth  
"No one can escape from the result of their choices"  
Justice of foreign forces, humans are a perfect  
imperfection

Within a perfect being,  
In the name of Gods,  
Conflicts are gathering  
And races crack is ever-growing  
While Nature is speaking only the deaf is listening  
With an open eye, see, Mother dying  
Reflecting the spectre of a spiritual disaster

Even under the reign of a cruel queen  
And the yoke of many borders  
It is allowed to dream of another reality...  
-Solidification through unification-

Poor trivialities we shall abandon  
Material needs now hide the essential seeds

By handing to our fellow men the sceptre of love and  
honesty  
Wonders of life will show the way onwards a unified  
humanity
