"Reptilian Shudders"

Once again, the sun has sunk in the horizon,
Breaching the Occident with crimson wounds,
Come, o Noctambulesque, creep under my shroud
And spread concupiscence in languorous pantomimes

...

Your pleasure's the law if you discover mine...

Your scales' caresses -reptilian shudders-
Compensates for the bruise left by fangs and claws.
As saliva gives lustre, I linger with fever over your
every pore,
Squirring by the temple where scrumptious vices
dwell.

Seduced thus uxorious, tantalized by your venomous
gaze,
I shine the idol of overshadowed rites,
This noble jewel deserves peculiar cares ...
A tongue alone won't do the trick to lick the drizzle of
strange frolics,
To quaff the monstrous passions that lurk in your leer.

Your hospitable hiatus
Exhales hedonistic delights,
And I taste it as a beast in a feast

Words seem superfluous, we use another language,
But alas! Confuse contradictions!
Madrigals are tattooed inside your womb
As the bane of lust rages.

An ardent and insidious duet
Lay on a soil cleansed of taboos
In a hellcove where the supreme offering is brought,
An interlude amid turmoil.
We should never relinquish our immoderate projects,
May they lead us to our ruin...

A familiar spectre shortens our nights, the ignoble
Somnolence.
Now that we have blessed our flesh,

Our both souls should here coalesce;
We're dislocated in amorous convulsions,
-the aftermath of demented clasps -
Shatter my rib-cage and extirpate my heart
That source of trouble stuck in Ut,
The burden of Melancholy alters my shoulders.

" I cannot love except where Death
Is mingling his with Beauty's breath. "

[Edgar A. Poe]
