Hatred awakes from many years of sleep
We need a scapegoat again
I laugh out loud 'cos I don't know what's worse;
Cheap movie speeches or those who believe in them
We move towards the 21st century holocaust
We fear no war 'cos we haven't learned a thing
You dumb fucks!
The shit from our mouths suddenly makes sense
We believe our own lies
It's so, so much easier to hate than to listen and try to
understand
We move towards the 21st century holocaust
We fear no war 'cos we haven't learned a thing
You dumb fucks!
