Two hundred watt halo
Got my mind blown
This my license
To your world overthrow
Scream defeat
Mindfuck deceit
Til I bleed on all that I own
Total doublecross
You don't want it with me
Fresh wound dipped in lime
You don't want it with me
I'm peaking
The pieces fall into place
Straight lines easy to erase
I'm peaking
Who you are is something
I can't understand
I blocked you out
I guess that was part of the plan
Who you are is something
I can't understand
I blocked you out
I've made my final demand
Snake killer
Test your placement
In front of my iron fist
