(try not to panic, try not to panic)
Born and bred through collar borderline psychotic
spending most of your life with pushers and alcoholics
don't try and analyse why we act this way
if i could go back now(now), there's not a thing i would
change(change)
this is where it's from and where it's at
i know that you can't lie but when i raise like that
you reserve the right to keep it to yourself
and i would too if i respected my health
(fuck you) this is us and us is this
better swing and pray you don't miss
(fuck you) this is us and us is this
better swing and pray you don't miss
Fuck you and all your negativity
it won't rub off on me
i've got my own as you can see
you're not alone in hating me
Phat beats with a scratch unmatched
laced to slash holes in your face, bass drone so low
shattered vertabrae, rocks inside of your backbone
what? you never thought i'd fucking sink this low?
when hate, pride and jealousy's your energy
you are your own worst (enemy)
it injects you disrespects and infects you
quick test you revolve
(fuck you) this is us and us is this
better swing and pray you don't miss
(fuck you) this is us and us is this
better swing and pray you don't miss
Fuck you and all your negativity
it won't rub off on me
i've got my own as you can see
you're not alone in hating me
So us is this, so us is this
(try not to panic, bitch ass mutha-)
Fuck you and all your negativity
it won't rub off on me
i've got my own as you can see
you're not alone in hating me
Fuck you and all your negativity

it won't rub off on me
i've got my own as you can see
you're not alone in hating me
