Seen enough to eye you
But I've seen too much to try you
It's always weirdness while you
Dig it much too much to fry you

The wind just flows between us
Anyone can tell to see us
Freak scene just can't believe us
Why can't it just be cool and free us?

Seen enough to eye you
But I've seen too much to try you
It's always weirdness while you
Dig it much too much to fry you

The wind just flows between us
Anyone can tell to see us
Freak scene just can't believe us
Why can't it just be cool and leave us?

It's so fucked I can't believe it
If there's a way I wish we'd see it
How could it work, just can't conceive it
Oh, what a mess it's just to leave it

Sometimes I don't thrill you
Sometimes I think I'll kill you
Just don't let me fuck up, will you
'Cause when I need a friend, it's still you

Oh, what a mess
