Stop banging away on my kaleidoscope,
Stop draining the colour out of my scene,
Just play me something I can dance to,
I can dance to anything you wanna sing,

So lock me up in a studio,
Fill it up with sound and scenarios,
Stop blocking the driveway with your car,
Put the butterfly in the bill jar,

It's the first time,
That I worry,
of a bad dream,
Of a journey
On a highway,
Through the valley,
It's a long road,
Through the night,
It's a long road,

There are strangers forcing the front yard,
Let the arrows tick past the deadline,
Get another stamp in your passport,
Wash your breakfast down with some red wine,
To leave the progress on your game,
Try to fall asleep while your ears ring,
From the loudest songs on your mixtape,
I can dance to anything you wanna sing,

No reason,
No action,
No silence,
No help here,
Nobody,
Came running,
Up by my side
It's the first time,
That I worry,
Of a bad dream,
Of a journey

On a highway,

Through the valley,
It's a long road,
Through the night,

It's the first time,
That I worry,
Of a bad dream,
Of a journey
On a highway,
Through the valley,
It's a long road,
Through the night,
It's a long road,
To get it right

It's the first time,
That I worry,
Of a bad dream,
Of a journey
On a highway,
Through the valley,
It's a long road,
Through the night,

It's the first time,
That I worry,
Of a bad dream,
Of a journey
On a highway,
Through the valley,
It's a long road,
Through the night,
It's a long road

T-to get it right,
T-get t-get t-get it right,
T-get t-to get it right,
T-t,
T-get t-get it right
