I'm gonna wanna see myself with something too  
Friends I don't pay for friends I never knew  
So, I took a chance and got some help from few  
And got a long and skinny friend to talk to

'Cause I had the time and the liberty  
To play with my new pet Sally  
Please don't go away Sally please

No more lonely showers and uneaten foods  
My salamander has hygiene too  
And he thinks of me the way I think of you  
The only next step for him is to say I do

'Cause I had the time and the liberty  
To play with my new pet Sally  
P.O, I love you

Sally please don't go away, I won't be  
Living in yesterday the lonely nights, getting  
Beat up by gays in bar fights
