"To An Angel"

Do you think I love you, and I like you?
You are right!
No one would know the meaning of love,
No one would see that i need you,
I just want you that know that I need you to be happy,
to forget about the pain and all the things,
If I can have you with me!!
If I know all the things I want I will be happy with you
An Angel have taught me the meaning of love,
the meaning of happiness.
Angel, you are the best thing in life,
Without you I want to die
and I need you always!!
