

Blissed "Shut Up"

Visit "[Shut Up](#)" on MotoLyrics.com

I heard you say follow me, I hear you say it every day
Show me, don't tell me, do something, something I can
see

I don't see you doing much more than talking and I've
had my fill of words today

Shut up and do what you've said
Let these words ring in your head
Just stop and do instead
Shut up and do what you've said

You talk to much it all sounds the same, your words fall
to the
Ground like pouring rain
Show me, don't tell me, do something, something I can
see

Shut up and do what you've said
Let these words ring in your head
Just stop and do instead
Shut up and do what you've said
I don't mean to say that I don't care about you
But I need us to
Shut up
