

## **Blisterhead "Radio Riot"**

Visit "[Radio Riot](#)" on MotoLyrics.com

I heard it on the radio there was a riot downtown  
The hooligans are here  
Smashing windows, breaking faces, running wild  
The hooligans are here  
I saw it through my window, there's a riot downtown  
The hooligans are here  
Drinking, fighting, burning cars, screaming loud  
The hooligans are here  
I see them run through the city tonight  
The sound of sirens makes them more anxious to fight  
You better watch out if you go out tonight  
Because the hooligans are ready to fight  
The flames of a burning cop car  
Is spreading heat into the summer night
