"Those Days"

Visit "[Those Days](#)" on MotoLyrics.com

You remember when
More and more, now and then
It's more like all the time
It's all the wasted time
Tomorrow's never there
Yesterday has no cares
Lost in memories
Wild... free...

Those days
They're gone
They're gone

Today is everyday
Well that's the way, or so they say
It never seems to pay
It just gets in the way
Some people live in dreams
Living in their tv screen
Someday their time will come
When yesterday is done
