### "By My Side"

Visit "[By My Side](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I'm all alone, I hear your voice from far beyond, the stars  
Tears in my eyes, the winter is fall, I'm waiting for the angels call  
I'm fading away, through the rain I walk without a guiding light  
Remember my life, I can't feel anymore, it's time to say goodbye

[chorus]

By my side, always you will fly  
By my side, times for glory rides  
By my side, you will be tonight  
By my side, hope will never die

From deep inside my heart is crying your leaving from this world  
And see your smile once again it's all I want to do, all I want to do

[chorus]

By my side, always you will fly  
By my side, times for glory rides  
By my side, you will be tonight  
By my side, hope will never die

How long it's the pain for love?  
The rain will stop some day  
Because I need you again with me.
