Whales, agonizing on the beach,  
Point out to human failures.  
Wastes on the sea,  
Asphixiating the water dwellers!  
You failed, you failed, to prepare future!  
You failed, you failed, to protect Nature!

You destroy life everyday,  
Crush the weak to feed the fat!

What will you gain, when there's no life on Earth?  
Corporation, short-minded greedy pigs!

Profit in mind, you desecrate our land!  
Exploit the earth, jeopardize our lives!

Humanity suicide [x4]
